

Eligibility List

Target Tech in Texas (T3) Collaborative Grant—American Recovery and Reinvestment Act (ARRA) of 2009

RFA #701-09-118

Funding under the T3 Collaborative Grant—ARRA is available to A) a high-need LEA; or (B) an eligible collaborative. Each high-need LEA may be included in only one application.

A) A high-need LEA is an LEA that meets **both** of the following criteria:

- At least 2,500 or 22% of the children served by the LEA must come from families with incomes below the poverty line, as identified by the 2007 U.S. Census data, **and**
- The LEA must serve one or more schools that meet **at least one** of the following criteria:
 - The campus was identified for improvement or corrective action under NCLB, Title I, Section 1116, and/or
 - The campus' Texas Campus STaR Chart reflects a substantial need for assistance in acquiring and using technology.

Campuses identified for improvement or corrective action under NCLB, Title I, Section 1116 can be found at the following web site:

http://ritter.tea.state.tx.us/nclb/titleia/sip/2008-09/2008-09_sipB.html

B) An eligible collaborative must be comprised as follows:

At least one member of the collaborative must be a high-need LEA. In addition to including at least one high-need LEA the collaborative must also include **at least one** of the following:

- An LEA that can demonstrate that teachers in its schools are effectively integrating technology and proven teaching practices into instruction. Moreover, the LEA must be able to demonstrate that its integration of technology has improved classroom instruction in the core academic subjects and made students better prepared to meet challenging state academic content and student academic achievement standards.
- An institution of higher education (IHE) that is in full compliance with the reporting requirements of Section 207(f) of the Higher Education Act of 1965 and that has not been identified as low-performing under Section 208 of that act.
- A for-profit business or organization that develops, designs, manufactures, or produces technology products or services, or that has substantial expertise in the application of technology in instruction
- A public or private nonprofit organization with demonstrated experience in the application of educational technology to instruction

The collaborative may also include other educational entities, such as ESCs, libraries, and other LEAs, with resources and ability to provide technology-focused programs to the local target population.

Special Note: Only an LEA or ESC may apply for T3 Collaborative Grant—ARRA funding as fiscal agent of the collaborative. For-profit entities, nonprofit entities, and IHEs are not eligible to apply as fiscal agents. They may be included as members of a collaborative.

TEA encourages LEAs to submit an application as a collaborative and will provide priority points to collaborative applicants. Three or more high-need LEAs included in the collaborative will receive additional priority points. Collaboration encourages the development of relationships so that LEAs are not working in isolation, but instead are searching out and identifying common needs, goals, and resolutions to create broader participation within the community to help move LEAs toward 21st Century classrooms.
